

Learning Objectives

- Recognize the role of EMS and ED in acute stroke management.
- Identify the evolving role of endovascular care given the recent new data.
- Summarize the medical and nursing management of the hemorrhagic stroke patient.
- Identify potential areas of cognitive change in children and adolescents post stroke and how brain development factors can impact recovery and cognitive functioning.
- Recognize the etiology of cardioembolic stroke and treatment strategies to reduce stroke reoccurrence.
- Identify the increased risk of stroke in patients with drug abuse and appropriate clinical assessment and treatment.
- Identify the etiology and clinical presentation of cerebral sinus venous thrombosis and arteriovenous malformation and the appropriate interventional treatment.
- Identify obstructive sleep apnea as a preventable, treatable and reversible cause of stroke.
- Discuss how tiered level of care and clinical team decision making within a stroke systems of care can positively impact patient outcomes.
- Explain the perspective from a patient and family treated through the continuum of care for an acute stroke with unknown etiology.

Agenda

7:00—7:45 am	Check-In /Exhibitors/ Breakfast (provided)
8:00—9:00 am	Welcome & Opening Remarks Update on Ischemic Stroke 2016 and Beyond <i>Dr. Peter Panagos MD, FACEP, FAHA</i> <i>Washington University</i>
9:00—10:00 am	Controversies in Hemorrhagic Stroke Management <i>Sarah Livesay, DNP, RN, ACNP-BC,</i> <i>ACNS-BS</i> <i>Rush University</i>
10:00—10:15 am	Break / Exhibitors
10:15-11:00 am	Stroke Impact to Learning in the Child/Adolescent Stroke <i>Dr. Terrie Price PhD</i> <i>Rehabilitation Institute of Kansas City</i>
11:00—12:00 pm	Heart and Stroke Connection <i>Dr. Rhea Pimentel MD</i> <i>The University of Kansas Hospital</i>
12:00—1:00 pm	Lunch / Brain Saver Award
1:00 —1:30 pm	Drug Abuse and Stroke <i>Dr. Karin Olds MD</i> <i>Saint Luke's Health System</i>
1:30—2:00 pm	Cerebral Blood Flow: Abnormal States in Stroke <i>Dr. Koji Ebersole MD</i> <i>The University of Kansas Hospital</i>
2:00—2:30 pm	Sleep Apnea– A Preventable Risk Factor For Stroke <i>Dr. Maniza Ehtesham MD</i> <i>Shawnee Mission Medical Center</i>
2:30—2:45 pm	Break / Exhibitors
2:45—4:00 pm	Cryptogenic Stroke: Patient Perspective of the Unknowns <i>Kurt Hinrichs, Patient</i> <i>Dr. Coleman Martin MD</i> <i>Saint Luke's Marion Bloch Neuro Institute</i>
4:00—4:30 pm	Closing Remarks

Continuing Education Credits

The American Heart Association has applied for CMEs/CEUs for Physicians, Physician Assistants, Nurse Practitioners, Nurses, and EMS Professionals.

Target Audience

- Healthcare professionals caring for Stroke patients
- Physicians
- Nurses
- EMS
- Allied health professionals

Registration

<https://www.surveymonkey.com/r/Nov11StrokeSymposium>

Fees

FREE to attend however advanced registration is required.

Hotel Rooms

Block rooms available at the Candlewood Suites

8953 W 135th St . Overland Park, KS 66221

Online reservations:
