Target audience: emergency physicians, neurologists, stroke coordinators, hospital administrators, and emergency department staff involved in the treatment of stroke. If you have any questions regarding this session, please contact your local Genentech representative.

- Notes:
- No CEUs will be offered for attending this session.
  - This is a disease state presentation and will not discuss specific products or treatments for the disease.

Minnesota, Vermont, the Department of Defense, and the Department of Veterans Affairs have restrictions on receiving in-kind benefits (e.g., meals, valet parking) at company-sponsored events. You are accountable for understanding such restrictions and complying with them. If you are licensed in or affiliated with any of these states or federal agencies, Genentech policies may restrict you from consuming any portion of the Genentech-sponsored meal at this program or from receiving any other in-kind benefit from Genentech (e.g., valet parking) in connection with the program. When you RSVP, please indicate whether you will accept or opt out of Genentech's in-kind benefits (e.g., meals, valet parking) at the program. If you choose to opt out you may either pay for the meal and parking on your own or not consume anything at the program. For all program attendees who receive Genentech's in-kind benefits at this program, Genentech will report the attendee's name and the value received as required by federal and state disclosure laws (for more information on the federal law, please visit <http://sunshine.gene.com>). The meal cost may vary by event location and could be up to \$125 per person (exceptions may apply).
